Good morning, all:

My sincere thanks to you, Casey and Russ for the opportunity to meet, discuss and then address the compliance concerns for ground and surface waters here in Kewaunee County! I was very pleased with the preparation work that all DNR personnel did for Friday's meeting and I felt we were successful in airing many of the concerns of the workgroup members and the citizens they represent.

As requested here is my response to the three Panel questions, along with some attachments that I referenced in my response. Please feel free to challenge any of my statements or to ask questions. In the meantime, I will look forward to publication of the meeting minutes from our September 11th meeting and to our next meeting in Luxemburg on September 29th!

Very Sincerely,

Ex. 6 Personal Privacy (PP)
